

A tiny reunion in the southern California sunshine on a cloudy cold day.

We had a reunion of sorts of our STLP school of graduates from 1957 through 1961. This get together was organized by John Meyer; make that John Meyer III.

We spent most of the time talking about old times at school and old neighborhoods.

These are some of the kids (yes, we are still kids), who attended. No, let me correct that; these were all of us and a photo. I'm the bald one in the back. My wife Judy North High 1960), is the short one in front of me with the spiked hair in the black and white jacket. I'm really not that tall but I stood on my toes.

These are their names and email addresses, if you want to contact them.
